

Industry Data for Asia

Back your big decisions with clean, reliable and forward-looking industry data. Our human-verified datasets are fully structured and integration-ready, available on our platform or delivered directly to yours.

Geographic Coverage

East Asia

- China
- Japan
- Hong Kong
- South Korea
- Taiwan
- Mongolia

Southeast Asia

- Singapore
- Indonesia
- Thailand
- Vietnam
- Philippines
- Malaysia
- Cambodia

South Asia

- India
- Bangladesh
- Pakistan
- Sri Lanka

Asia by the numbers.

Sector by sector.
Market by market.

Data Coverage

Our analysts uncover gaps, reconcile inconsistencies and transform **up to 20 years of historical figures** into a clean, structured foundation. From there, we model an additional **five to six years of forecasts** so you can anticipate shifts across hundreds of industries.

✓ Number of Enterprises

✓ Industry/Sector Revenue

✓ Number of Employees

✓ Imports & Exports

✓ Industrial Value Added (IVA)

✓ Total Wages

It's data shaped for diligence: **complete, comparable and credibly forecasted.**

Sector Coverage

Built on the International Standard Industrial Classification (ISIC) framework, our Asia dataset gives you the power to benchmark industries, assess cross-border opportunities and track regional trends through one consistent system.

100%

Sector-level coverage

230+

Manufacturing industries

400+

Additional industries

- ✓ Agriculture, forestry and fishing
- ✓ Mining and quarrying
- ✓ Manufacturing
- ✓ Electricity, gas, steam and air conditioning supply
- ✓ Construction
- ✓ Wholesale and retail trade; repair of motor vehicles and motorcycles
